### Adrenal Balance, Support & Regeneration

In Greek, the term 'Sarcodes' means fleshy. Sarcodes imply protoplasm of animals, as distinguished from vegetable protoplasm. In homeopathy, some of the Sarcodes are proved medicines. They are obtained from healthy endocrine or ductless glands, or from normal secretions of living human organs and lower animals. The secretions are mostly hormones. As such, they are gainfully employed as homeopathic support and correction of the indicated substance through the provision of the correct oscillatory signature of what a healthy, well functioning gland or secretion should be. A strategic blend of X and CH potencies are present in the 60 mL cobalt blue bottle (protects the remedy) for this purpose, as are accompanying "classical homeopathic" remedies.

*Note the addition of flower essences in some remedies, appropriate to the targeted gland, organ or system.*

The idea of organotherapy was first introduced by Constantine Hering, M.D., the father of American Homeopathy, in 1834. This research has been continued now by prominent European, North and South American physicians and practitioners.

There are three proposed ways in which organotherapy is believed to work:

1. It has a direct effect on stimulating the function of the organ by enhancing the selection of enzymes and specific nucleic acids lacking in the organ.
2. The administration of the homeopathic preparation of organ tissue overwhelms the body with organ antigen, in effect stopping the production of anti-organ antibodies.
3. The organotherapy remedy may provide antigen to substitute for damaged tissue antigen.

We use low potentized botanicals, tissue salts, and 6C sarcodes, which are at the perfect homeopathic balance point between encouragement and regulation. (Typically 4C and 5C homeopathic potencies are used for stimulatory effects; 7C is used for regulating the organ or tissue and 9C as inhibitory).

Attempting to detoxify a weak or low functioning organ without first providing repair and nourishment will have detrimental effects, both physically and energetically that may, in fact, push the organ deeper into failure.

Nowhere is this more emphasized than is the case of the

adrenal glands. It is well understood that the adrenals are central to the body's ability to heal and recover. At the core of this understanding is the fact that the anterior pituitary, thyroid and adrenals work synergistically and in sequence, under the guidance of the hypothalamus (HPA-axis). For example, clinical reports indicate that most adrenal problems are also thyroid problems and vice versa. The pituitary and hypothalamus direct and sequence the hormonal cascade.

Adreno Code is a thoughtfully crafted homeopathic combination formula of low potentized sarcodes, adaptogenic botanicals, emotional flowers, minerals and vitamins conscientiously prepared to provide a powerful, stabilizing and innervating remedy.
