Detoxifier Homaccord Tincture

Multiple Food Allergy Detoxification

The Homeopathic Pharmacopoeia Convention of the United States defines nosodes as "homeopathic attenuations of: pathological organs or tissues; causative agents such as bacteria, fungi, ova, parasites, virus particles, and yeast; disease products; excretions or secretions." Isopathic remedies share a close relationship with nosodes, however, they emphasize substances taken and potentized from the patient's surround such as environmental toxins, metals, imponderables, etc. Detoxifiers presented in this section are a combination of classical homeopathic preparations in a 60 mL cobalt blue bottle (protects the remedy) which may include nosodes, isodes, sarcodes and potentized botanicals all designed to differentiate, constellate and amplify the keynote focus of the remedy. All ingredients are made from mother tinctures, hand diluted as per Hahnemann and hand succussed. Many are in multiple potencies known as homaccords to provide for the processes and patterns of homeopathic ascendancy. *Potentized Mesenchyme 6X, 9X, 6C and ATP 5X are included to assist in homeopathic ECM drainage and homeopathic empowerment.*

The incidence of food allergy and sensitivity is rapidly increasing in today's society. Conditions often associated with food allergy, such as asthma, eczema, Arthritis, digestive disorders, ADD/ADHD, etc., are on the rise. Many North American elementary schools have placed a complete ban on nut and nut products in the last decade due to the increasing number of children suffering from serious and debilitating allergic reactions to these foods.

It is estimated that 60-80% of the population suffers from food allergies and sensitivities, yet because most people associate allergic reactions only with sudden, severe symptoms such as diarrhea, stomach pain and anaphylaxis, these allergies and sensitivities go mostly unnoticed.

Any symptom can be the result of an allergic response. Chronic inflammation, obesity, ulcers, hypertension, chronic fatigue, hypoglycemia, joint pain, headache, depression, etc., often have at their root, a reaction to certain foods or food groups.

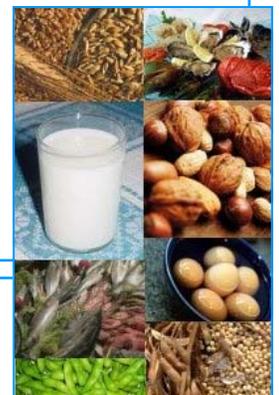

Food allergies are not always inherited. Allergy can be the result of cumulative exposure to certain foods. Repeated exposure to the same foods can overwhelm the body's ability to digest and detoxify by-products of digestion. Continued consumption of these particular foods can result in an immune response.

Genetic modification of foods and the use of pesticides, food additives and synthetic fertilizers have made our food

almost unrecognizable to the body. In sensitive individuals, the body responds to these foods as if they were "foreign invaders", eliciting an immune response known as an allergic reaction. Age, nutritional deficiencies, weakened digestion, impaired immunity and stress all increase the chances of developing food allergies and sensitivities.

Aller-Tox I is an all-inclusive homaccord detoxifier designed specifically to address multiple food allergy detoxification. Multiple homaccords of the most common allergenic foods and food additives are contained in this formula, addressing a wide variety of food allergies and sensitivities at a deep cellular level. Sarcodes supply the body with the blueprint of healthy tissue, while phenolics, herbs, polychrests, neurotransmitters and immune enhancing factors help to decongest and clarify the extracellular matrix.

Aller-Tox I homeopathically assists to resolve multiple food allergies and sensitivities, decreasing the total antigenic load on the body and initiating the process of restoring balance and repair.

Ingredients:

Acetaldehyde 6X, 12X, 30X, 12C, 30C
Adrenal 3X
Argentum nitricum 6X
Arsenicum album 6X
ATP 5X
Cortisone 6X, 12X, 30X
Food Additives 30X, 60X, 200X
Food Allersode 12X, 30X, 60X
Gallic Acid 6X, 12X, 30X, 12C, 30C

Histamine 6X, 12X, 30X, 12C, 30C
Hyaluronidase 30X
Hydrangea arborescens 6X
Interferon 6X, 12X, 30X, 12C, 30C
Liver 5X, 6C
Lycopodium clavatum 12X
Mesenchyme 6X, 9X, 6C
Nux vomica 12X
Serotonin 6X, 12X, 30X, 12C, 30C
