

# Aller-Tox II

Concentrated Homeopathic Medicine  
2 oz. NPN 80046357

## Patient Reference

### Detoxifier Homaccord Tincture **Multiple Airborne Allergy Detoxification**

The Homeopathic Pharmacopoeia Convention of the United States defines nosodes as "homeopathic attenuations of: pathological organs or tissues; causative agents such as bacteria, fungi, ova, parasites, virus particles, and yeast; disease products; excretions or secretions." Isopathic remedies share a close relationship with nosodes, however, they emphasize substances taken and potentized from the patient's surround such as environmental toxins, metals, imponderables, etc. Detoxifiers presented in this section are a combination of classical homeopathic preparations in a 60 mL cobalt blue bottle (protects the remedy) which may include nosodes, isodes, sarcodes and potentized botanicals all designed to differentiate, constellate and amplify the keynote focus of the remedy. All ingredients are made from mother tinctures, hand diluted as per Hahnemann and hand succussed. Many are in multiple potencies known as homaccords to provide for the processes and patterns of homeopathic ascendancy. *Potentized Mesenchyme 6X, 9X, 6C and ATP 5X are included to assist in homeopathic ECM drainage and homeopathic empowerment.*

Allergies are considered to be a disorder of the immune system. Sometimes referred to as hypersensitivities, allergies are characterized by an immune response to a substance that is normally harmless to most people. In the case of environmental allergies, IgE antibodies are produced in response to inhaled allergens. The most common airborne allergens are pollen, mold spores, dust and animal dander.

It is estimated that almost half the population of North America and Europe suffer from airborne allergies. Affecting primarily the upper respiratory tract, symptoms of airborne allergies include sneezing, watery eyes, runny nose, wheezing, coughing, sinus pain and congestion, headaches and fatigue. Although rarely life-threatening, these reactions can significantly decrease the quality of life, resulting in loss of time and productivity from work, school and other activities.

The symptoms of allergy are due to the release of histamine. Released by mast cells, histamine causes inflammation, smooth muscle contraction, increased mucous secretion and irritation of epithelial cells. Increased mucous production and bronchiole constriction of the lower airways is responsible for the development of allergic asthma, a disease which can be threatening.

Environmental pollutants such as smog, exhaust fumes, synthetic chemicals, heavy metals, etc., all play a

role in the increased incidence and severity of environmental allergies. Due to the increased allergenic load in our environment, many allergy sufferers exist in a state of perpetual hyper-reaction. This chronic state of immune reactivity and inflammation can ultimately lead to more serious forms of disease.

*Aller-Tox II* is a broad-spectrum homaccord detoxifier designed specifically to address multiple airborne allergy detoxification. Multiple homaccords for the most common inhaled allergens (pollen, animal hair, feathers, etc.) are included in this formula along with homeopathic herbs and polychrests to address a wide variety of inhaled allergies at a deep cellular level. Sarcodes provide the body with the blueprint of healthy tissue.

*Aller-Tox II* homeopathically assists to resolve multiple airborne allergies, decreasing the total antigenic load on the body and assist in returning the body to homeostasis.

#### Ingredients:

Adrenal 3X  
Allium Cepa 3X  
Ambrosia artemisiaefolia 3X  
Arsenicum album 12X  
ATP 5X  
Coumarin 6X, 12X  
Euphrasia officinalis 3X

Histamine 6X, 12X, 30X, 12C, 30C  
Liver 5X  
Lung 3X, 6X  
Menadione 5X, 12X, 30X  
Mesenchyme 6X, 9X, 6C  
Phosphorus 12X  
Piperine 5X, 12X, 30X

Pollen allersode 9X, 12X, 30X  
Pulsatilla nigricans 12X  
Rutin 5X, 12X, 30X  
Sabadilla officinalis 3X, 6X  
Sulphur 12X
