### Detoxifier Homaccord Tincture **Intestinal Mesenchyme Detoxification**

**The Homeopathic Pharmacopoeia Convention of the United States defines nosodes as** "homeopathic attenuations of: pathological organs or tissues; causative agents such as bacteria, fungi, ova, parasites, virus particles, and yeast; disease products; excretions or secretions." Isopathic remedies share a close relationship with nosodes, however, they emphasize substances taken and potentized from the patient's surround such as environmental toxins, metals, imponderables, etc. Detoxifiers presented in this section are a combination of classical homeopathic preparations in a 60 mL cobalt blue bottle (protects the remedy) which may include nosodes, isodes, sarcodes and potentized botanicals all designed to differentiate, constellate and amplify the keynote focus of the remedy. All ingredients are made from mother tinctures, hand diluted as per Hahnemann and hand succussed. Many are in multiple potencies known as homaccords to provide for the processes and patterns of homeopathic ascendancy. *Potentized Mesenchyme 6X, 9X, 6C and ATP 5X are included to assist in homeopathic ECM drainage and homeopathic empowerment.*

*"In times past, knowledge of the bowel was more widespread and people were taught how to care for the bowel. Somehow bowel wisdom got lost and it became something that no one wanted to talk about anymore." - Dr Bernard Jensen*

The bowel is the source of some of the most internal toxic material in the body. Almost all products of detoxification from the liver and other organs of detoxification end up in the large intestine to be eliminated as it is the last stop for digestive wastes on their way out of the body. Healthy elimination is essential for the health and vitality of the entire body.

Poor dietary choices, impaired digestion and environmental contaminants all contribute to an excess of undigested food particles and toxins in the bowel, which can destroy beneficial organisms and promote the growth of harmful microorganisms. These harmful microorganisms create toxic by-products that can damage the intestinal mucosa, allowing toxins to pass through the intestinal lining and into the rest of the body via the blood and lymphatic system - a process called autointoxication.

Pathogenic bacteria in the colon can lead to a variety of health problems, including diarrhea, constipation, inflammation, bloating, flatulence and decreased immunity. Damage to the intestinal mucosa caused by these pathogenic

organisms and their toxic by-products can lead to the development or exacerbation of conditions such as Irritable Bowel Syndrome, food allergies, Crohn's disease and ulcerative colitis.

**Colo-Tox is a powerful homeopathic homaccord detoxifier specifically designed to address the complex intestinal imbalances in the human body.** A combination of homeopathic herbs and nutritionals act to decrease inflammation, soothe damaged tissue and nourish the intestinal mucosa.

**Multiple homaccords of common intestinal nosodes including E. coli, Salmonella, H. pylori and Giardia** assist in the detoxification and drainage of these pathogens at a deep cellular level. Sarcodes provide the blueprint of healthy tissue to support vital organs during detoxification and help to rebuild damaged tissues.

**Colo-Tox assists in re-establishing the health of the entire gastrointestinal tract as part of an overall healing protocol.** It works exceptionally well with *GALT-Fortifier, CataZyme-7IU* and *Flora Syntropy* in re-establishing a healthy intestinal terrain for lasting health and well-being.
