

Drainage Milieu

Concentrated Homeopathic Tincture
60 mL NDC 54118-7985-2 / DIN HM 80007553

Drainage Tonifiers

Mesenchymal Drainage & Tonification

Traditional Keynotes:

- Drains Mesenchyme
- Spleen, Thymus & Lymphatic Drainage
- Immune Support

Complementary Remedies:

- BioToxicosis Lymph 1, 2 or 3
- Lympho Code
- Trifolo Intrinsic
- Scrofulara Intrinsic
- Cilantro Intrinsic
- Burdock Intrinsic
- Solidago Intrinsic
- Dandi Intrinsic
- Gen Intrinsic
- Mycelia Intrinsic
- Olive Leaf Intrinsic
- Wild Bear Garlic
- Spleen Chi
- MetaChlor

Posology: One full dropper 2x daily in warm water, or as directed by a Health Care Practitioner

Drainage and Tonification is central to the healing process. It is well understood that until the extra cellular matrix is clarified, there will not be complete cellular resolution.

1) BioToxicosis remedies such Lymph 1, 2, and 3 assist in the clarification of the systemic drainage pathways 2) Spagyric botanicals decongest, drain and detoxify at the physical level and 3) the Milieu Series provide homeopathic drainage at the point of focal interference. Utilizing this combination, the local and systemic ECM drainage pathways are liberated and healing is the natural outcome as obstacles to cure are no longer an issue.

As an added bonus feature, the Milieu Drainage Tonifiers also contain specific flower remedies designed to assist in the drainage and tonification of the emotional terrain.

Homeopathic drainage is considered to be a functional process, traditionally accomplished using low potentized remedies. Today, the increasing xenobiotic onslaught upon our world requires a more extended approach.

The Milieu Series of remedies was eclectically and thoughtfully crafted to provide a more global understanding of a case picture. The addition of complementary tonification factors assist in preparing the body for deeper, safe detoxification.

Each remedy provides gentle drainage and tonification, without causing the immediate release of cellular toxins, which can create additional complications for BioToxicosis and Homotoxicological processes.

A blend of low potentized, ascending homeopathic glands and hormones combine elegantly with Spagyric botanicals, polychrests, cell salts and flower essences to complete the case picture and ensure a well measured and proportionate response.

Western-approach clinicians report successful integration of the Milieu drainage and tonification remedies in acute situations related to the organ or causal chain indicated. TCM practitioners find that drainage remedies nourish the blood, chi, yin and yang. Similar results are reported in healing arts' approaches around the world, although with different "poetry", including Ayurveda, South American traditional medicine, etc.

These unique remedies work exceptionally well in opening up conditions that are stuck or potentially cloaked.

The process of detoxification refers to techniques used to assist in the movement of stored toxins from the extracellular spaces of the liver, colon, etc. Detoxification methods can be quite helpful, but often provide only temporary benefit as

they do not address the intracellular toxins accumulated throughout the body.

Homeopathic drainage is the only method capable of permanently removing toxins from inside living cells. While detoxification does not involve tonification of the weakened systems, drainage remedies are able to provide support and improved functioning to sluggish or weakened systems in the body. This is critical for recovery from chronic illness or stuck or "cloaked" conditions.

Drainage remedies encourage the release of unhealthy substances at the point of focal interference. Instead of attempting to activate a whole body system to release stored toxins, they encourage the body to let go of unhealthy substances in the specific target areas where they are being retained. Drainage remedies are to be very gentle and do not elicit a worsening of symptoms or a "healing crisis".

The Lymph BioToxicosis remedies (Lymph 1, 2, & 3) were designed for systemic drainage and as bio-directional indicators.

Drainage Milieu was designed to work directly with drainage elements related to specific cells and organs that require additional mesenchymal assistance in order to fully drain. It is particularly effective in the case where typical drainage remedies are either partially or completely ineffective.

In cases requiring additional drainage, it is not unusual for practitioners to recommend a BioToxicosis Lymph remedy along with *Drainage Milieu* as part of a total protocol which also includes botanical, homeopathic and nutritional remedies.

Drainage without tonification will prove ineffective, as cells and organs may well buckle under the strain of detoxification. The patient may feel better initially, however, in the long run, the damage will be apparent often in the form of other conditions.

Ingredients:

Calcarea iodatum
6X, 12X, 30X
Capsicum annuum 3X
Echinacea angustifolia 1X, 3X
Germanium sesquioxide 3X
Lymph 3X, 6X, 30C
Nitricum acidum 12X

Phytolacca decandra 3X
Scrophularia nodosa 3X, 6X, 12X
Shark cartilage 5X
Spleen 3X, 6X, 12X
Sulphur iodatum 12X
Thuja occidentalis 3X
Thymus 3X, 6X, 12X
Trifolium pratense 1X, 3X

Crab apple 30CH
Oak 30CH
Olive 30CH
Pine 30CH
Hornbeam 30CH

Drainage Milieu

Materia Medica

Calcarea iodatum (Calcium Iodide) 6X, 12X, 30X - It is used for the enlargement of lymph nodes, swollen tonsils, chronic otitis media, thyroid disorders, ulcerative varicose veins and tendency to colds.

Capsicum annuum (Cayenne Pepper) 3X - Cayenne pepper exerts a number of beneficial effects on the cardiovascular system. It reduces the likelihood of developing arteriosclerosis by reducing blood cholesterol and triglyceride levels. Cayenne is also thought to reduce platelet aggregation and increases fibrinolytic activity. It stimulates endorphins and metabolism.

Echinacea angustifolia (Coneflower) 1X, 3X - Research studies show that echinacea contains active substances that enhance the activity of the immune system, relieve pain, reduce inflammation and have hormonal, anti-viral, and antioxidant effects. For this reason, professional herbalists use echinacea to treat urinary tract infections, vaginal yeast (candida) infections, ear infections (also known as otitis media), athlete's foot, sinusitis, hay fever (also called allergic rhinitis & other allergic conditions), hormonal balancing, menstrual problems, as well as slow-healing wounds.

Germanium sesquioxide (Germanium) 3X - Germanium sesquioxide helps support the body's natural immune defenses. Germanium helps maintain the body's natural production of gamma interferon and natural killer cells. Studies indicate that germanium exhibits antioxidant potential.

Lymph (Sarcode) 3X, 6X, 30C - Lymph is the fluid that is formed as the interstitial fluid (ISF) enters the lymph vessels by filtration. As it flows through the lymph nodes it comes in contact with blood and tends to accumulate more cells (particularly, lymphocytes) and proteins. The two primary lymph systems are the thymus gland and the bone marrow, where the immune cells form or mature. The secondary lymph system is made up of encapsulated and unencapsulated diffuse lymphoid tissue. The encapsulated tissue includes the spleen and the lymph nodes. The unencapsulated tissue includes the gut associated lymph tissues and the tonsils.

Nitricum acidum (Nitric Acid) 12X - It is a deep acting remedy which positively influences the gastro-intestinal tract, nerves, glands, bones and endocrine system. It treats infections of the mucous membranes and urinary tract, vitiligo, warts, ulcers, gastritis, malignancy, joint pain and hemorrhoids.

Phytolacca decandra (Poke Root) 3X - Poke root has a very favourable influence on the glandular system, inciting and increasing its actions. It regulates the liver and bowels, cleanses the blood and is highly valued in conditions due to impurities in the blood. The primary chemical constituents of Poke root include triterpenoid saponins, alkaloids (phytolaccine), phytolaccic acid, formic acid, lectins, tannin, anti-viral protein (PAP), fatty oil, resin and sugars. It is an alterative which will gradually restore the proper function of the body and increase health and vitality to the lymphatic system.

Scrophularia nodosa (Figwort) 3X, 6X, 12X - Figwort has been used to treat many ailments associated with the lymphatic system and also as a cardio-tonic. It is said to be used with good results in the relief of eczema and psoriasis. Figwort is also considered a mild diuretic and effective laxative.

Shark cartilage 5X - Obtained from the spiny dogfish shark and hammerhead shark. This supplement is used to treat Cancer, Arthritis, osteoporosis, Kaposi's sarcoma, macular degeneration, psoriasis, and inflammatory disorders. It has immune-stimulant properties and is used to aid the lymphatic system when under xenobiotic burden.

Spleen (Sarcode) 3X, 6X, 12X - A large, highly vascular lymphoid organ, lying in the human body to the left of the stomach below the diaphragm, serving to store blood, disintegrate old blood cells, filter foreign substances from the blood and produce lymphocytes.

Sulphur iodatum 12X - It is used for chronic skin conditions and swollen tonsils and lymph nodes.

Thuja occidentalis (White Cedar) 3X - Thuja is used for respiratory tract infections and an anti-viral, used in the treatment of bacterial skin infections and Herpes simplex. It makes an effective expectorant and decongestant remedy and may be used to treat acute bronchitis and other respiratory infections. Thuja induces menstruation and can be taken to bring on delayed periods, although this use is inadvisable if menstrual pain is severe.

Thymus (Sarcode) 3X, 6X, 12X - The main function of the thymus is to provide an area for T lymphocyte maturation, aiding Chronic Fatigue, hormonal imbalances, menopause, exhaustion and underpowered therapies.

Trifolium pratense (Red Clover) 1X, 3X - Herbalists have long prized this herb for its traditional use as a blood purifier, expelling toxins from the bloodstream. It is used to treat nervous system and has expectorant and antispasmodic action give this remedy a role in the treatment of coughs and bronchitis, but especially in whooping cough, dry cough and colds. As a digestive aid, Red Clover stimulates the production of digestive fluids and bile. It is also said to relieve constipation and help soothe inflammation of the bowel, stomach and intestines. It contains stilbene, which is believed to stimulate estrogenic activity, thus possibly increasing fertility and reducing "hot flashes" experienced by women during menopause.

Flowers

Crab apple 30CH - Cleansing, inner purity, resolving self disgust issues.

Hornbeam 30CH - Enthusiasm, resolving attitudes of weariness & burden.

Oak 30CH - Balanced strength, letting go of inflexible patterns.

Olive 30CH - Revitalization, overcoming exhaustion after struggle.

Pine 30CH - Self-acceptance, dissolving criticism and blame.

Additional Ingredients:

Reverse osmosis water 68%
