Geopathic Stress Detoxification

The Homeopathic Pharmacopoeia Convention of the United States defines nosodes as "homeopathic attenuations of: pathological organs or tissues; causative agents such as bacteria, fungi, ova, parasites, virus particles, and yeast; disease products; excretions or secretions." Isopathic remedies share a close relationship with nosodes, however, they emphasize substances taken and potentized from the patient's surround such as environmental toxins, metals, imponderables, etc. Detoxifiers presented in this section are a combination of classical homeopathic preparations in a 60 mL cobalt blue bottle (protects the remedy) which may include nosodes, isodes, sarcodes and potentized botanicals all designed to differentiate, constellate and amplify the keynote focus of the remedy. All ingredients are made from mother tinctures, hand diluted as per Hahnemann and hand succussed. Many are in multiple potencies known as homaccords to provide for the processes and patterns of homeopathic ascendancy. *Potentized Mesenchyme 6X, 9X, 6C and ATP 5X are included to assist in homeopathic ECM drainage and homeopathic empowerment.*

Geopathic Stress is a form of natural radiation that rises up through the earth, distorted by weak electro-magnetic fields created by subterranean running water, certain mineral concentrations, fault lines and underground cavities. The wave lengths of natural radiation becomes harmful to living organisms when disturbed in this way.

Electropathological energy created by modern technology can also contribute to geopathic stress in the form of high and low frequency energy from telecommunication towers, electricity pylons, transformers and radar/radio towers. This is said to result in "geopathically stressed locations", which are thought to contribute to ill health and a long list of ailments, ranging from headaches to Cancer.

The late Dr. Hans Nieper stated that 92% of all his cancer patients and 75% of his MS patients are geopathically stressed. Dr. Nieper, who was a world-renowned Cancer and MS specialist, operated one of the largest MS practices in the world, in Germany.

In the 1930's, geopathy pioneer George Lakhovsky first claimed that geopathic stress causes the human body to vibrate at much higher frequencies than is naturally healthy and that this can affect the immune system, making people sleeping or working in geopathically stressed locations more susceptible to bacteria, viruses, parasites and environmental pollution.

Geopathic theory holds that the inner Earth normally vibrates at approximately 8Hz, but locations of geopathic stress are said to vibrate at much higher frequencies. If the inner Earth's vibration of 8Hz crosses a water vein 60-150 meters below ground, stress lines vibrating at up to 250Hz can be created. Such frequency anomalies cause disturbances in the immune system, behaviour and cell structure.

Many geopathic practitioners and some mainstream physicians in Europe ensure that their most seriously ill patients' homes are screened to rule out geopathic stress. Geopathic stress is considered by these practitioners as a determinant in Cancer, CFS, Fibromyalgia, migraines, ADD, cardiovascular deficiency, chronic pain, aging, Asthma, Multiple Sclerosis, Rheumatism, onset of AIDS, Tuberculosis and Meningitis and also play a part in depression, miscarriage, birth defects, SIDS and many nervous conditions.

Geopathic influences may be among the most neglected contributing or causative agents for Cancer and other disease. Contrary to what some may assume, geopathic stress is not partially a "question of belief", but an area which has been studied in-depth over millennia and today includes scientifically measurable and "respectable" quantities and factors, for which Hahnemann coined the term IMPONDERABLES.

Apart from the physiological effects of geopathic stress, it's good policy to pay attention to shifts in the emotional and mental health of the patient.

"We have felt uncomfortable ever since we moved into this house, our health has deteriorated, and our previously happy family has become miserable."

Metabolic-Tox is a unique homeopathic formula designed to address geopathic stress and the "imponderables" and provide the resonances necessary for the Vital Force to bring about healing and resolution.
