**Detoxifier Homaccord Tincture**

**Complementary Remedies:**
- Echinacea angustifolia 12X, 30X
- AT 5X
- Arsenicum album 6X
- Adrenal 5X
- Hydrastis canadensis 3X
- ATP 5X
- Borax veneta 12X, 30X
- Liver 3X, 6X
- Echinacea angustifolia 12X, 30X
- Lomatium dissectum 3X
- Mesenchyme 6X, 9X, 6CH

**Ingredients:**
- Adrenal 5X
- Arsenicum album 6X
- ATP 5X
- Borax veneta 12X, 30X
- Echinacea angustifolia 12X, 30X
- Fungus 12X, 30X
- Gliotoxin 12X
- Phytolacca 12X
- Spleen 3X, 6X
- Stachybotrys chartarum 12X, 30X
- Tabaebuia impetiginosus 3X
- Thymus 3X, 6X
- Triticum repens 3X

**Traditional Keynotes:**
- Mycotoxin Detoxification
- “Sick House Syndrome”
- Fungal Overload
- Asthma
- Multiple Molds, i.e. Aspergillus
- Chronic Sinus Infections
- Neurological Implications
- Dermatological Patterns
- Hormonal Imbalances
- “Universal Reactors”

Materia Medica

**Adrenal (Sarcode) 5X** - Adrenal glands (also known as suprarenal glands); are chiefly responsible for regulating the stress response through the synthesis of corticosteroids and catecholamines, including cortisol and adrenaline, respectively.

**Arsenicum album (Arsenic) 6X** - Is a frequently-used homeopathic substance derived from the metallic element arsenic. It is used to treat a range of symptoms that include digestive disorders (especially food poisoning), insomnia, allergies (from mold and fungal pathogens), drainage of lymph, anxiety, depression and obsessive-compulsive disorder and it has been studied as a possible treatment for arsenic poisoning.

**ATP (Sarcode) 5X** - Adenosine-5'-triphosphate (ATP) is a multifunctional nucleotide and is most important in cell biology as a coenzyme that is the "molecular unit of currency" of intracellular energy transfer. In this role, ATP transports chemical energy within cells for metabolism.

**Borax veneta (Borate of Sodium) 12X, 30X** - The high osmotic content of salt in this remedy inhibits bacterial and fungal growth.

**Echinacea angustifolia (Coneflower) 3X** - Research studies show that echinacea contains active substances that enhance the activity of the immune system, relieve pain, reduce inflammation and have hormonal, anti-fungal, anti-viral and antioxidant effects. For this reason, professional herbalists use echinacea to treat traumatic insect bites, vaginal yeast infections, ear infections, athlete's foot, sinusitis, hay fever, hormonal balancing, menstrual problems, as well as slow-healing wounds.

**Fungus 12X, 30X** - Contains 36 fungal detoxifier homaccord strains to provide a specific representation of the energetic bandwidth of a variety of fungal pathogens. They alert the body to various fungal strains, resulting in deep cellular elimination.

**Actinomycyes cerevisiae** .......................... 12-30x  
**Aspergillus flavus** .............................. 12-30x  
**Aspergillus glaucus** ............................. 12-30x  
**Aspergillus niger** ................................. 12-30x  
**Blastomyces dermatitidis** ..................... 12-30x  
**Candida albicans** ............................... 12-30x  
**Candida parapsilis** ............................. 12-30x  
**Candida rugras** ................................. 12-30x  
**Candida tropicalis** ............................. 12-30x  
**Candida stellingeria** ......................... 12-30x  
**Cnidium utilissi** ............................... 12-30x  
**Cryptococcus Species** ....................... 12-30x  
**Epidermophyton floccosum** .................. 12-30x  
**Fusarium solani** ............................... 12-30x  
**Geotrichum candidum** ....................... 30x  
**Mucor plumbeus** .............................. 30x  
**Oris Noscde** ................................. 12-30x  
**Penicillium camemberti** ...................... 30x  
**Penicillium chrysogenum** .................. 30x  
**Pululartia pullulans** ....................... 30x  
**Rhizopus nigricans** ........................... 30x  
**Trichophyton species** ....................... 30x  

**Gliotoxin (Fungal Metabolite) 12X, 30X** - Fungal secondary metabolites such as gliotoxin, an epipolythiodioxopiperazine toxin produced by pathogenic fungi like Candida and Aspergillus, possess immunosuppressive activities while affecting neurons, inactivating enzyme systems, producing free radicals, interfering with the DNA of leukocytes, is cytotoxic and contributes to the pathology of fungal infections. These are consistently present in mercury and root filled teeth, NICO's, microbial infection etc.

**Hydrastis canadensis (Goldenseal) 3X** - Goldenseal's numerous uses are attributed to its antibiotic, anti-myco, anti-inflammatory and astringent properties. Goldenseal is said to cleanse and promote healthy glandular functions by increasing bile flow and digestive enzymes, thereby regulating healthy liver and spleen functions. Importantly it is very effective in stabilizing the overgrowth of fungus.

**Liver (Sarcode) 3X, 6X** - The liver plays a major role in metabolism and has a number of functions in the body, including glycogen storage, decomposition of red blood cells, plasma protein synthesis and detoxification. The liver produces and excretes bile required for emulsifying fats; bile drains directly into the duodenum and some is stored in the gallbladder. It is also responsible for the conjugation of hormones and the breakdown of insulin.
