

# Pre & Post Milieu

Concentrated Homeopathic Tincture

60 mL/2 oz.

NPN 800 07415

## Patient Reference

### Drainage Tonifiers

### Trauma & Pain Drainage & Tonification

**Drainage and Tonification is central to the healing process.** It is well understood that until the extra cellular matrix is clarified, there will not be complete cellular resolution. 1) BioToxicosis remedies such LY-1, LY-2, and LY-3 assist in the clarification of the systemic drainage pathways 2) Spagyrical botanicals decongest, drain and detoxify at the physical level and 3) the Milieu Series provide homeopathic drainage at the point of focal interference. Utilizing this combination, the local and systemic ECM drainage pathways are liberated and healing is the natural outcome as obstacles to cure are no longer an issue. As an added bonus feature, the Milieu Drainage Tonifiers also contain specific flower remedies designed to assist in the drainage and tonification of the emotional terrain.

Homeopathic drainage is considered to be a functional process, traditionally accomplished using low potentized remedies. Today, the increasing xenobiotic onslaught upon our world requires a more extended approach.

The Milieu Series of remedies was eclectically and thoughtfully crafted to provide a more global understanding of a case picture. The addition of complementary tonification factors assist in preparing the body for deeper, safe detoxification.

Each remedy provides *gentle* drainage and tonification, without causing the immediate release of cellular toxins, which can create additional complications for BioToxicosis and Hometoxicological processes.

A blend of low potentized, ascending homeopathic glands and hormones combine elegantly with Spagyrical botanicals, polychrests, cell salts and flower essences to complete the case picture and ensure a well measured and proportionate response.

Western-approach clinicians report successful integration of the Milieu drainage and tonification remedies in acute situations related to the organ or causal chain indicated. TCM practitioners find that drainage remedies nourish the blood, chi, yin and yang. Similar results are reported in healing arts' approaches around the world, although with different "poetry", including Ayurveda, South American traditional medicine, etc.

*These unique remedies work exceptionally well in opening up conditions that are stuck or potentially cloaked.*

*Pre & Post Milieu* is a carefully crafted blend of homeopathic ingredients specifically designed to target the

repair of damaged tissue in the body.

Tissue damage can occur due to a variety of causes, such as the inability to excrete toxic loads, stress, trauma (cuts, fractures, bumps, bruises, scars), nerve damage and surgery.

For homeopathic medicine to be effective, we need to understand that the perception of pain is very individualized - it can be burning, cutting, stitching, stabbing, electric, drawing, bursting or pounding. It can be sharp like a knife, sharp like a needle, or sharp like a nail. The distinctive qualities of pain, when combined with knowledge of the general characteristics of the person who experiences the pain, will allow us to select the appropriate homeopathic remedy.

For the past 15 years, international practitioners have reported excellent homeopathic results when dosing *Pre & Post Milieu* remedies prior to surgery (dental & otherwise), and on an "as-needed" basis following the procedures. Reduced healing time and pain reduction have been clinically well appreciated.

*Pre & Post Milieu homeopathically*, addresses the type of pain generally associated with surgery (particularly dental), although it should not be construed as a substitute for conventional medical pain medication. In accordance with this statement however, there are countless practitioners and patients who have experienced substantial relief and reduced healing time and reparative support through the application of this drainage and tonification remedy.

Drainage without tonification will prove ineffective, as cells and organs may well buckle under the strain of detoxification. The patient may feel better initially, however, in the long run, the damage will be apparent often in the form of other conditions.

#### Causal Chain Ingredients:

Arnica montana 200X

Belladonna 6X, 12X, 30X

Cortisone 6X, 12X, 30X

Hypericum perforatum 6X, 12X, 30X

Symphytum officinale 12X

Valeriana officinalis 1X, 3X
