## Drainage Tonifiers

## Hydration Drainage & Tonification

**Drainage and Tonification is central to the healing process.** It is well understood that until the extra cellular matrix is clarified, there will not be complete cellular resolution. 1) BioToxicosis remedies such Lymph 1, 2, and 3 assist in the clarification of the systemic drainage pathways 2) Spagyric botanicals decongest, drain and detoxify at the physical level and 3) the Milieu Series provide homeopathic drainage at the point of focal interference. Utilizing this combination, the local and systemic ECM drainage pathways are liberated and healing is the natural outcome as obstacles to cure are no longer an issue. *As an added bonus feature, the Milieu Drainage Tonifiers also contain specific flower remedies designed to assist in the drainage and tonification of the emotional terrain.*

Homeopathic drainage is considered to be a functional process, traditionally accomplished using low potentized remedies. Today, the increasing xenobiotic onslaught upon our world requires a more extended approach.

The Milieu Series of remedies was eclectically and thoughtfully crafted to provide a more global understanding of a case picture. The addition of complementary tonification factors assist in preparing the body for deeper, safe detoxification.

Each remedy provides *gentle drainage and tonification, without causing the immediate release of cellular toxins*, which can create additional complications for BioToxicosis and Homotoxicological processes.

A blend of low potentized, ascending homeopathic glands and hormones combine elegantly with Spagyric botanicals, polychrests, cell salts and flower essences to complete the case picture and ensure a well measured and proportionate response.

Western-approach clinicians report successful integration of the Milieu drainage and tonification remedies in acute situations related to the organ or causal chain indicated. TCM practitioners find that drainage remedies nourish the blood, chi, yin and yang. Similar results are reported in healing arts' approaches around the world, although with different "poetry", including Ayurveda, South American traditional medicine, etc.

*These unique remedies work exceptionally well in opening up conditions that are stuck or potentially cloaked.*

"You're not sick—you're thirsty! It is unintentional chronic dehydration (UDR) that causes pain and disease"

F. Batmanghelidj, M.D.  
The Bodys' Many Cries for Water

With two thirds of the earth's surface covered by water, and the human body consisting of 75 percent of it, it is evidently clear that water is one of the prime elements responsible for life on earth. Water circulates through the human body just as it does through the land, transporting, dissolving and replenishing nutrients and organic matter, while carrying away waste material. In the body, water regulates the activities of fluids, tissues, cells, lymph, blood and glandular secretions. An average adult body contains 42 litres of water, and with just a small loss of 2.7 litres, he or she can suffer from dehydration, displaying symptoms of irritability, fatigue, nervousness, dizziness, weakness, headaches and consequently reach a state of pathology.

- Blood = 82% water
- Lungs = 90% water
- Brain = 76% water
- Bones = 25% water

The beverages most people choose to consume are counter-productive to proper hydration. Coffee, tea, alcohol, and soft and sugary drinks are all diuretics, and will cause not only the loss of the water they are contained in, but they will also draw water from the body's reserves.

**Clearly everyone needs ReHydrate!**

*Drinking water alone can sometimes be counter-productive, as it will decrease the osmolality (concentration of ions) of the extracellular fluid, signalling the kidney to let go of even more fluid to find balance. This "diluted blood" also tends to shut off the thirst mechanism.*

### Ingredients:

Adrenal 6X, 6C  
ATP 4X, 6X, 12X, 30X  
Coffea cruda 1X  
GABA 6X, 12X, 30X  
Germanium sesquioxide 4X, 6X, 8X  
Hypericum perforatum 3X, 6X, 12X

Hypothalamus 6X, 6C  
Kidney 6X, 6C  
Serotonin 6X, 12X, 30X  
Taraxacum officinale 1X  
Natrium muriaticum 6X
