

## Abundant Prostate

POTENT NUTRITIONAL REPAIR AND PROTECTION

UNIQUE NATURAL PROSTATE SUPPORT  
OVER 200 PEER-REVIEWED STUDIES

### NEED FOR ABUNDANT PROSTATE

**Abundant Prostate** is an essential supplement for any man over age 40. This formula provides potent, natural support for prostate function.\*

**Abundant Prostate** is the first and only prostate formula to combine the following eight scientifically validated, synergistic herbs and nutrients:

1. **Saw Palmetto** (*Serenoa repens*) is the most extensively studied herb for prostate function. The saw palmetto in **Abundant Prostate** provides 85% to 95% active fatty acids from the oil of the saw palmetto berry. It is the most active saw palmetto available.\*
2. **Pygeum** (*Pygeum africanum*) has also been scientifically substantiated to benefit prostate health. **Abundant Prostate** combines pygeum with saw palmetto berry for powerful, synergistic prostate support.\*
3. **Lycopene**, a super potency antioxidant carotenoid, is specifically recommended for healthy prostate function. This formula provides a full 12 mg of fully bioavailable

lycopene. In contrast, other prostate products offer a lycopene complex that is only 2% to 3% active.

4. **Nettle** (*Urtica* contains vitamin C, iron, and other prostate-supportive nutrients).\*
5. **Linoleic acid** is an essential polyunsaturated, omega 6 fatty acid found in pumpkin seed oil.
6. **Linolenic acid** is an essential polyunsaturated, omega 3 fatty acid found in pumpkin seed oil.
7. **Zinc picolinate** is an essential mineral for prostate health.
8. **Selenium** (as l-selenomethionine) is also an essential mineral for prostate health.

### ABUNDANT PROSTATE DIFFERENCE

The synergy of these eight prostate vitality factors brings effective results in just a few days. In contrast, other formulas proudly proclaim that in just three to four months you can expect to feel results.\*

This vegetarian, hypoallergenic formula provides eight prostate- nourishing compounds in their most active, beneficial forms. This synergized combination sets **Abundant Prostate** apart from all other prostate formulas.

**SAW PALMETTO TRIALS SHOW RESULTS**

A clinical trial explored the impact of saw palmetto berry extract on benign prostatic hyperplasia (BPH). Eighty-nine urologists enrolled BPH patients between the ages of 41 and 89.

Of the 315 patients who took 160 mg of saw palmetto extract twice a day for three years, most reported substantial benefit.

At the end of the study, 75% of the patients reported improvements in nocturia and the sensation of incomplete voiding. Most patients experienced some relief within just six months. Over 80% of the patients and physicians reported that the effectiveness and tolerance of the herbal treatment was "good" or "very good."\*

Typically, BPH patients experience a 24% to 58% deterioration of prostate function over two to five years. However, in this study, the deterioration rate was only 13.6%.\*

The sterols in saw palmetto berry neutralize harmful testosterone metabolites, which is beneficial for BPH patients.\*
